US TUBING & FITTINGS KIT

This kit allows an American refrigerator to be connected to the water supply. The pack includes everything required to make the connection:a food-safe 6-metre pipe, a set of 6/35 connectors and a set of 20/27 converters.
All selected components are of high quality and thanks to the 'speedfit' connections, there is no need for tools to assemble or disassemble the pipe and connections.

UST009	481281718405	8015250022803	F NL DE UK I E GR PL

TIMESTRIP

NEW

Timestrip is the world's first "visual alarm clock" useful for monitoring storage of perishable items. It measures how long food has been kept in the freezer under normal freezing conditions (-18°C). Its special design allows the time indicator to go faster if the preservation temperature is too high, thus giving effectively an 'equivalent time' as if preserved at the right temperature. Timestrip ensures best quality and freshness and stops you throwing out food as it is easy to see which food will be out of date first.

HOME CARE COOLING **WASHING** COOKING DISPLAYS

DISHWASHING

DW TABS ALL IN 1

All in 1 tablets grant excellent cleaning results. They degrease dishes perfectly and remove even hard to shift deposits. Thanks to the rinse-aid effect, they leave sparkling and gleaming dishes and with the salt function they remove limescale deposits on dishes. The glass protection effect prevents glass corrosion. Efficient already at 40°C & eco program, providing excellent cleaning results with minimum water and electricity consumption. Very practical and safe as the water soluble pouch prevents contact with the skin and reduces the need for wasteful extra packaging.

REGENERATING SALT

The professional formula of regenerating salt effectively removes calcium based deposits enabling the machine to operate to its optimum performance. Thanks to its extra fine granules and its superior 99.4% purity it dissolves rapidly and ensures the regular and effective funtioning of your appliance's water softener.
